

Birthday Cake & Candles

Directions: Photocopy the cake and candles. You will need one candle for each child, and twelve birthday cakes.

Cut out, decorate, and laminate the birthday cakes. Write the name of a month on each one. Print a small photo of each child, and attach it to his or her birthday month. Display the cakes on the classroom wall in order, beginning with August.

Cut out and color the candles. Write each child's name on a candle, and attach it to his or her birthday month above the child's photo. Fold the flame back behind the candle. On the child's birthday, fold the flame up so it shows. Celebrate summer birthdays sometime during the school year.
